

**MEMORANDUM**

---

**FROM:** Heather Strong, PE  
**TO:** All Customers and Associates  
**DATE:** December 7, 2012  
**SUBJECT:** Tapered Red-I65T™ I-Joist Specifier's Guide (Updated 10/24/2012)

---

The purpose of this memo is to provide updated shear values for the printed version of the specifier's guide referenced above. The updated shear values reflect the values shown in the ICC-ES Evaluation Report ESR-2994, reissued July 1, 2012. Table 1 shows the updated shear values.

**Table 1: Updated Shear Values for Red-I65T™**

<b>Joist Depth</b>	<b>Updated Shear Value (lbs)</b>
9.5"	1565
11.875"	2030
14"	2285
16"	2530
18"	2770
20"	3010
22"	3255
24"	2880
26"	2880
28"	2880
30"	2880

The allowable load tables shown on Page 5 of the specifier's guide are current. Please contact your RedBuilt™ Technical Representative for configurations that are outside the scope of the tables.
