

The former Commercial Division of Trus Joist® is now RedBuilt™ LLC.

RedBuilt will continue to manufacture the complete line of commercial grade I-joists and open-web trusses the commercial construction industry has relied on for almost 50 years. Current commercial Trus Joist® products will be rebranded as RedBuilt and will continue to be manufactured by the same associates in the same plants.

RedBuilt I-joists (Red-I's) and open-web trusses will be offered with identical properties and depths, and will be complemented by the new light duty Red-I45 that rounds out our product offering for commercial projects and provides a high quality, cost effective Red-I for use in multi-family structures.

The following tables are intended to familiarize you with the new RedBuilt product names and to provide a quick reference for product conversion.

I-Joist Conversion Table

RedBuilt™	Discontinued Trus Joist® Designation	Available Depths	LVL Flange	Web
Red-I45™*	--	9 1/2", 11 7/8", 14" - 20"	1 1/2" x 1 3/4"	3/8"
