

## OUR TECHNICAL TEAM IS THE BEST OF THE BEST

RedBuilt is a leading engineered wood products, structural components, and construction systems supplier to the commercial construction industry across North America. Our continued reputation for unparalleled customer service and support goes back over 60 years, and we are growing!

We currently have technical positions open for talented individuals who want to be part of this dynamic team:

**REDBUILT DESIGN TECHNICIANS** play a key role in the design of every product solution for every sale. Many have two-year degrees or certificates in Engineering, Construction Management, or Architecture. They are experts in not only structural design and RedBuilt products, but in clear communication of product and installation requirements. Projects may be diverse, but the duties of a Design Technician are focused on:

- Floor & roof system modelling using Revit software
- Wall component layout using Vertex BD software
- Detailing
- Floor & roof truss design using proprietary RedBuilt software
- Component design analysis and selection
- Critical communication with customers, architects, engineers, and our team of sales representatives

Qualified candidates must be:

- Excellent at reading and interpreting construction drawings
- Comfortable and productive using Microsoft Office tools
- Experienced in drafting and modelling software such as Revit
- Responsive to fluctuations in customer demand
- Detail oriented and quality focused
- Innovative and creative problem solvers
- A team player and great communicator
- Excellent at math, and the application of trigonometry

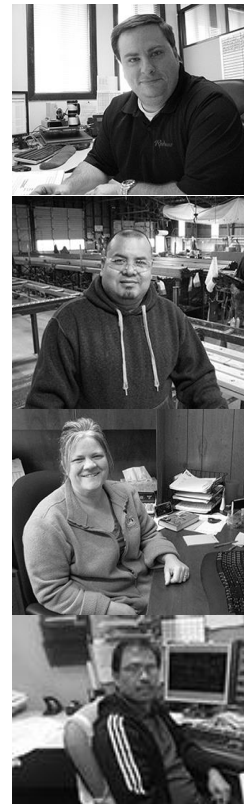

Helpful alternate experience includes:

- Framing or construction experience
- Dynamo scripting for Revit
- Experience with other BIM software tools
- Prior experience designing structural systems in wood

Design Technician is a full-time hourly position with excellent benefits (medical, dental and vision, life, short-term disability, and 401k plan), working under the supervision of a licensed Professional Engineer, and reports to a Design Center Leader. Positions are available in:

Boise, ID  
Chino, CA  
Delaware, OH  
Hillsboro, OR
